

ULTRASOUND PROBE DRAPES

Protecting your Patients and your Budget

Spectrum Labs' full line of OR equipment drapes are 100% Latex-free and made in the USA. Strong and durable, they are made from soft anti-stat material, with medical grade tape strips. The clear polyethylene will not obstruct view.

ULTRASOUND PROBE DRAPE (LDPE)

7" x 96" is one-piece, telescopically folded flat, with latex-free bands for attachment. User-friendly and easy to pull/roll on, its seamless tapered end eliminates interference with ultrasonic transmission. EtO Sterilized.

ULTRASOUND PROBE DRAPE (ELFLEX)

8"x55" comes with straps for added convenience and greater sterile integrity. This safety design reduces risk of glove contamination. Pre-rolled for faster clinician application. EtO Sterilized.
